Question #4 *Topic 1*

DRAG DROP -
You are setting up approval workflows in Dynamics 365 Business Central.
You need to configure approval limits.
Which approver limit types should you use? To answer, drag the appropriate approver limit types to the correct requirements. Each approver limit type may be used once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.
Select and Place:

Approver limit types

- Direct approver
- Specific approver
- First Qualified approver
- Approver Chain

Answer Area

Requirement	Approver limit type
Route approval requests to the approver defined in Approval User Setup, regardless of the amount.	Approver limit type
Route approval requests to the approver defined in the Workflow Response, regardless of the amount.	Approver limit type
Route approval requests to a user who can approve requests for the required amount.	Approver limit type

Correct Answer:

Approver limit types

Direct approver
Specific approver
First Qualified approver
Approver Chain

Answer Area

Requirement	Approver limit type
Route approval requests to the approver defined in Approval User Setup, regardless of the amount.	Direct approver
Route approval requests to the approver defined in the Workflow Response, regardless of the amount.	Specific approver
Route approval requests to a user who can approve requests for the required amount.	First Qualified approver
